Public Notice: CDBG: Period of Comment on Environmental Impacts

(Longview, TX) The ERR (Environmental Review Record) will be made available for review in the Housing and Community Development office from 8:00 a.m. to 5:00 p.m. by appointment only (due to covid-19 restrictions), Monday through Friday and the division will receive comments from all interested parties for seven (7) days after the publication. The Community Development Administrator will address all comments within 30 days and a copy shall be placed in the ERR. The Community Development Administrator shall not submit the RROF (Request for Release of Funds) until all comments have been addressed.

Project for review: 2020 Public Works- Spring Street.

Replacing old undersized water mains with minimum standard water mains will improve water service, quality, and fire protection. This makes the neighborhood more livable and more able to redevelop. The city is seeing an increase in the rebuilding of affordable homes in the low and moderate income areas and our water main replacement program has helped with that implementation.

**Please submit all questions in writing to the
Housing & Community Development Office drop box located at
1202 N. Sixth Street**
