Longview Animal Care & Adoption Center provides lost and found reports for public viewing only. LACAC is not liable for information contained herein or for disposition of animals that are not claimed by their owners in person within 72 hours. Please keep looking, as this report does not replace an owner coming into the shelter on a regular basis to search for their companion animals. While LACAC makes every effort to help return missing animals to their homes, LACAC is not responsible for notifying any person filling out a lost form if an animal matching this description is brought to the shelter. LACAC staff will contact owners of animals wearing traceable identification.

Lost and found reports are kept on file for approximately four (4) weeks and are not returned to the reporter. LACAC is not responsible for any photographs or other items attached to the report. Thank you for your effort to help an animal in need.
