

Annual Project Listing

Federally Obligated
Transportation Projects
Adopted - November 29, 2017

Purpose of this Report

The Longview Metropolitan Planning Organization (MPO) is required by the Moving Ahead for Progress (MAP-21) Act “to publish or otherwise make available an annual listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which federal funds have been obligated during the previous fiscal year. The listing shall be consistent with the funding categories identified in the Longview Transportation Improvement Program.” Obligated projects in this report are broken down into four categories; highways, transit, bicycle and pedestrian, and other grouped projects. This report provides an overview of the transportation planning and programming process and the resulting federal funding obligation of the Transportation Improvement Program (TIP).

This report lists projects which were federally obligated in the 2017 fiscal year (October 1, 2016 – September 30, 2017). An obligation is the federal government’s commitment to pay its fair share of the project cost. This obligation happens at the time when the project is executed and the State or Grantee requests the funds. For Federal Transit Administration (FTA) projects, obligation occurs when the FTA grant is awarded. In summary, an obligated project is one that has been approved by the federal government for reimbursement. Projects contained in the Annual Listing of Projects may not have been initiated or completed in the fiscal year.
